

Adrian Event Volunteer

I have been volunteering with Brighter Futures, as well as Great western Hospital for approximately four years.

I enjoy helping Brighter Futures as I feel that I am giving something back to the community, as well as helping raise money for a fab cause. It is enjoyable and varied and get to work with great people who are really dedicated.

I have marshalled for the Brighter Futures cycle rides, races, walks and fun runs. My duties have included making refreshments, bucket collections and medal giving. It is a great way to get out of the house and get involved free of charge.

Who knows it may be my friends, family or even me that may need the facilities or services that cannot be funded in any other way.
